

## Wish to tackle TB with us? The Global TB Summit 2023 is here.

As tuberculosis (TB) continues to affect millions worldwide, our fight against TB carries on through the Global TB Summit. Every year, the summit brings together global TB experts, advocates and survivors to share knowledge, exchange experiences and celebrate progress in tackling TB together.

We are thrilled to announce the 2023 edition of the Global TB Summit. Together, we aim to drive significant advancements in our fight against TB. The summit this year is:

- **On October 17–19**
- **Online and on-site in London (October 19)**
- **Free to register and attend**
- **CME- and CPD-accredited**

### Let's piece together a complete picture of a TB-free world

Embracing the theme “Tackling TB together: From awareness to action,” our goal is to bridge the gap between knowledge and tangible measures for TB management — piece by piece.

If you are interested in tackling TB, the CPD- and CME-accredited Global TB Summit is for you. It is your ticket to learn all about TB management and become a driving force in the fight against TB. Are you ready to piece together a complete picture of a TB-free world with us?
